

Rooftop Adventure at the Milan Duomo

Engage in Scavenger Hunts and Photo Challenges for an Unforgettable Experience

Turn your visit to the Duomo rooftop into an unforgettable adventure with these fun-filled activities. Perfect for teens — or anyone who needs a little nudge to look up from their phone — this challenge invites you to explore, discover, and capture memories like never before. Think of this as a jumping-off point, not a rulebook. Tweak it, add your own twists, and most of all — have fun with it!

Rooftop Scavenger Hunt

Embark on a scavenger hunt with your group and see who can find these iconic rooftop features first. Snap a photo or simply point out each one:

- A **gargoyle with wings** that watches over the city
- A **face that looks surprised** among the many statues
- The **golden Madonnina (virgin Mary)** atop the cathedral (bonus points for a selfie with her!)
- A **spire taller than the others**, reaching for the sky
- A **statue holding something odd**—is it a sword, a book, or perhaps a sheep?
- Something **cracked, chipped, or weathered** by time
- A **distant church dome** peeking over the horizon
- A **fashion billboard**—after all, it's Milan!

Instagram Photo Challenge

Unleash your creativity with these photo challenges and see how many you can complete:

- Take your **most iconic rooftop selfie** (bonus points for creative angles, not danger).
- Take a "**statue pose**" photo mimicking one of the marble figures
- Create a breathtaking **rooftop panorama**
- Zoom in for a **close-up of the marble texture**
- Snap a **group pic** where everyone pretends to be statues

Duomo Detective

Put on your detective hat and challenge your observation skills with these questions:

- How many spires are on the Duomo? (Take a guess before Googling: it's 135!)
- Which direction is the city center?
- Can you spot another church from the rooftop?
- Find the oldest-looking statue. What's its story (make it up)?
- Choose the best spot to deliver a dramatic prophecy of your choice

Bonus: Sibling Showdown

For an extra layer of fun, split up the list with your siblings or friends. The first one to complete 3–5 challenges gets to pick the next gelato flavor stop!
